**C**                    **C/B**  
And the love we shared  
          **Am**            **F**  
Don t mean that much to me  
**F**                                    **Fm**                    **C**  
Cant you see I m older wanting more for less  
          **C/B**                    **Am**                    **F**  
And I know that with love and light we ll grow  
                          **Fm**                                    **C**  
To be part of something that s worthwhile

**F**                    **Em**                    **F**  
And the light of your reason warms my soul  
          **Em**                                    **F**  
Taste my love don t let it go  
          **Fm**                                    **C**  
And with love and light we ll grow

**C**                                    **C/B**  
You pick me up you put me down  
          **Am**                                    **F**  
Oh you turn my world around  
  **Fm**                                    **C**  
And I don t believe you when you say you re right  
          **C/B**                    **Am**                    **F**  
You re on the ball oh you run so fast you fall  
  **Fm**                                    **C**  
And I wont be there to catch you when you do

**F**                    **Em**                    **F**  
And the light of your reason warms my soul  
          **Em**                                    **F**  
Taste my love don t let it go  
          **Fm**                                    **C**  
And with love and light we ll grow

**F**                    **Em**                    **F**  
And the light of your reason warms my soul

**Em**

**F**

Taste my love don t let it go

**Fm**

**C**

And with love and light we ll grow
