Title: Europa
Artist: Prozzak
Album: Hot Show

Tablature by MRW: chillie__willie@hotmail.com (double underscore)

These are the tabs for the chord progression ONLY.
The Intro and the Solo have been excluded.

You may have to listen to the song to hear the rhythm
Milo uses as he strums the chords. The progression is
difficult to hear due to its low volume, but you should be
able to pick it up if you use this guide. Hope this helps someone!
