

I Remember
Psychotic Waltz

Psychotic Waltz - I Remember

Em **D**
I remember a story of great battles won
F#/D **Em**
and the tale of our heroes who died by the gun
C **Am**
while the rest looked and smiled at the freedom they ve won
B **Em**
but the weight of the chain slows the run

I remember a song about flags standing high
as the red blazing rockets turned dark a blue sky
I remember the reason the weak shared good-byes if they could

I remember a sight at the dreams that we had
and the injustice they ve suffered had driven them mad
I remember when we had the right to be sad all the time

I remember the war of the great days of old
and the battle hymns they sung while they died in the cold
I remember the good men they bought and they sold for a dime

C **D** **Em**
let s take a look now what we ve changed
C **B** **Am**
after all we re still so much the same
C
after all this time
Am
can t we make up our minds
B **G F# Em**
must we all play the losing game

let s take a look now what we ve changed
after all we re still so much the same
after all this time
can t we make up our minds
guess we ll all play the losing game
