HURRICANE - PULL TIGER TAIL

Capo on 5th Fret

#### VERSE 1

On the day that we left the neighbourhood heart skipped a beat.  
Oh the trees folded up and they shook as we drove down the street  
I said to myself Were finally getting away,  
When we come back I know theyll all look the same

#### PRE-CHORUS

Now lets go to our city and well change overnight  
We wont think about leaving oh why would we do this time?

#### CHORUS 1

A hurricane hit while we were missing  
Oh, can anybody tell me where the damage is?

#### VERSE 2

On the day that we left the phones and the power were down  
Oh the wind doubled up and it sand every boy in the town

When it was done the magic it left with the storm
