difficult to tab out cause it s very orchestra-orientated. There is no clear distinction between verse & chorus so i ve worked with parts. It s actually divided in 4 (i think) parts. i ve done my best to it figure out and i think i ve done quite well with parts 1 and 4 but the 2 middle parts... .no way! I m gonna keep trying but any help would be greatly appreciated. Please forgive any mistakes since I am an amature guitar player. I Think it s played with a capo on the 1st fret but listen to it and figure it out yourselves...
