**G#**

Get a little closer, let fold

Cut open my sternum, and pull

**Fm**

My little ribs around you

**G#**

The rungs of me be under, under you

I ll cut the soft pockets, let bleed

**Fm**

Over the rocky cliffs that you leave

**G#**

To peer over and not forget what feet are

Splitting threads of thunder over me

**Fm**

That I might see with my chest and sink

**D#**

Into the edges round you

**Cm**

**Fm**

Into the lakes of quarry s that brink

**D#**

On all the edges round you

Get a little closer, let fold

**Fm**

Cut open my sternum, and pull

**G#**

My little ribs around you

The lungs of me be crowns over you

**Cm**

Get a little closer, let fold

**Fm**

Cut open my sternum, and pull

**G#**

My little ribs around you

The rungs of me be under, under you

**Fm**

I ll cut the soft pockets, let bleed

**G#**

Over the rocky cliffs that you leave

To peer over and not forget what feet are

Splitting threads of thunder over me

Listen closely, closely to the floor

Emitting all its graces through the pores
