Verso #1 (o verso é tocado no mesmo ritmo que é cantado):

Young, dumb, don t see a problem
Bloodshot, stare like a hoodlum
Simple as this, I m in love with the risk
I know what I ve done but tell me what did I miss?

So please don t save something
Waste not, save nothing
Lose the halo, don t need to resist
A lick of the lips and a grip on your hips

Verso #2:

First thing we succumb to
Shout, erase and undo
Days are unreleased, if there s no release
Please just let me do whatever fits you

Make something, make someone
Beg on a knee, baby, baby please
Pout your bottom lip while cracking the whip
You know what we want, it s candy to cum to
