**Am**                      **E**  
Hold on girl, don't be blue  
**C**                              **D**  
Dry those tears for me and you  
**F**                      **Am**  
Can't you see our love is true  
**F**                      **E**  
When you remember

To do just what you say you'll do  
Can't you see I live for you  
And I need you to trust me too  
So open your eyes

**A**                                      **Dm**  
And let the sunshine that's in you  
**A**                              **Dm**  
Light all your windows  
**A**                                      **Dm**  
And change all your baby blues  
**F**  
To gold
