

Work Of Art

Rachel Platten

Hi :) this is my first tab submission, and I hope you enjoy playing as much as I do!

Capo on the 5th Fret

G Em C D  
My heart beats like it s on fire  
and everything is alright, as long as I am inspired  
I stitched together my life from hand me downs and  
good advice that finally fit me

(chorus)

G Em  
I put my heart where my head should be  
and light up the rest of me  
Cause my dreams, they won t fall apart through the stops & starts when  
you re life is a work of art

G Em C D

G Em C D  
I found this door to my inside, I flung it open  
so dreams could rush in like the high tide  
I learned I m not an island, or a fairytale,  
cause in the end I m not pretending

(chorus)

G Em  
I put my heart where my head should be  
and light up the rest of me  
Cause my dreams, they won t fall apart through the stops & starts when  
you re life is a work of art ( x 2 )

**G** **Em** **C**  
My heart keeps tumbling my head keeps fumbling my life s begun and then  
**D**  
I jump in the ocean

**G** **Em**  
**C D**  
My heart keeps tumbling but the words have started coming and I think I am  
finally ready:

(a little lighter)

**G** **Em**  
To put my heart where my head should be  
**C D**  
and light up the rest of me  
**G Em C**  
Cause my dreams, they won t fall apart through the stops & starts when  
**D G**  
you re life is a work of art

Hope you enjoy!

With love,

Camillita
