

The Fog

Rachel Sermanni

As the other chords version might sound fine but is completely different to what Rachel plays, here is the one given me by a good man who managed to figure it out. It sounds really good and fairly close to the original to me.

Here are the (few) chords played:

Fm = x24432

Fm/Eb = x04432

Fm/Db = 3x4432

Em = x13321

Fm/C = 2x4432

C9 = 212020

C7/Bb = x7897x

C7/Bb (Bb down octave) = 078970

Ebsus2sus4 = x02430

Db = 355433

C = 24432

Db6 = 355400

Bbm = 022000

Eb = 577655

G = x4666x

Put a capo on the 6th fret and follow this basic picking (Fm example):

```
E |-----|
B |----3-3----3-3-|
G |----4-4----4-4-|
D |-----|
A |-2-2----2-2----|
E |-----|
```

I hope it is clear enough... yes I know that the names of the chords are not related to the capo (forgive me), but the fingering is. Shall we begin then?

INTRO (PICKED)

If anything I wrote is wrong it is because it is 2:38 in the morning... and if it is

right instead, then thank that good man, as I already said.

Have fun spending - at least - one week learning how to play this song.

I shall soon be writing the tab to Sleep aswell.

Good night for now!
