[Intro] **F A7sus4 C G**

You can tell me to breathe

F

What to say when I talk

A7sus4

Climb on my back

C

You slide down my neck

G

And use my face for a walk

You can tell me to smile

F

A7sus4

You can make things worthwhile

C

Need slap as I cry

Probably laugh as I try

G

To figure out what you re smiling about

Send me straight of to hell

Am

G

To find a story to tell

C

And you know that I will

Am

Make my life worth my while

G

Give me a reason to smile

You better hurry

C

And I hope that you will

Am* G* C*

Don't ever hold me down

Am* G* C*

Don't ever hold me down

F A7sus4 C G

F

Choose your life, it's your choice

A7sus4

To fall asleep with the noise

C

Yell at me and the guys

When it's been one of those nights

G

You're probably right

F

Oh, when you open your mouth

A7sus4

The pretty words that roll out

C

You point your finger at me

You've seen the worst I can be

G

I hope you know what that means

Am

Send me straight off to hell

G

To find a story to tell

C

And you know that I will

Am

Make my life worth my while

G

Give me a reason to smile

And you'd better hurry

C

And I hope that you will

Am G C

Don't ever hold me down

Am G C

Don't ever hold me down

F A7sus4 C G

F A7sus4 C G

F

Not the talk, good of kind

G

And yesterday is behind

Am

And I believe that it s better that way

F

You send me straight of to hell

G

To find a story to tell

For you to go there

Am

And you know that I will

F

But don t you step on my brain

G

It drives a man insane

Am

And it s nothing to be laughing about

F

I got nothing to prove

G

I ll be the fool for you

If there s anything

D

I ll help you out

Am G C

But don t you ever hold me down

Am G C

But don t you ever hold me down

Am G C

You ve got, you ve got nothing to hold me down

Am G C

Don t ever hold me down
