After a while the song repeats itself and has minor permutations, but generally speaking if you follow the chords with the lyrics you should be alright. It sounds like the higher strings aren't hit at all but I wasn't sure. Experiment with it. Also: Always slide between Am and Bm, and maybe even slide from Bm to E.

**E** 022100  
**E7** 020100  
**A** 577655  
**Am** 577555  
**Bm** 788777  
**C** x32010

**E** **E7**  
You fell asleep beneath the choking dreams  
**A Am Bm**

Underneath the burning tree  
**E E7**  
You say okay belong the wasted eye  
**A Am Bm**

I know you don't believe in me

**E**  
Round and round I go

**E7**  
You twist my heart

You watch the race  
**C**

How many cars can ride the wave  
**Am Bm**

Haven't twisted for relations sake  
(**Am Bm**) x3 **Am**
