

**A Punch-up At A Wedding**  
**Radiohead**

*Intro:* **Em**

**Em**

I don t know why you bother  
Nothing s ever good enough for you (by the way)  
I was there and it wasn t like that  
You have come here just to start a fight

You had to piss on our parade

**Bm**

You had to shred our big day

**Am**

You had to ruin it for all concerned

**Em**

In a drunken punch-up at a wedding

Hypocrite opportunist  
Don t infect me with your poison  
A bully in a china shop  
When I turn around you stay frozen to the spot

You had the pointless snide remarks  
Of hammerheaded sharks  
The pot will call the kettle black  
It s a drunken punch-up at a wedding
