Comments: I got sick of not having a tab or anything of this song, so I did an acoustic arrangement by ear. That Asus4/F# chord may not actually be the right name, I think it could be a D/F#

Em **C** **Asus4/F#**

you`re telling me you`re happy but I know you`re not.

I look into your eyes and see you heart is black.

Are you afraid of me or why don`t you look back?

You`re telling me to follow, do it like you`ve said,

you`ll get me never, never, never...

frustrated, full of hate,

G Gb

deep in the blackest hole!

You don`t like to see the world
like it is, you try to change it all.

You`re in defense, only appologize,
you`re telling me you`re lucky but I know your lies.

I look into your eyes and see your heart turns red
like if you`re wounded but no drop of blood is shed.
You don`t look for a cure, instead you`re hurting me,
You`ll get me never, never, never...

What has happened to you life?
Everything you had is missing.

I don`t want to be like you, the time will come,
when everything too late
Deep in the blackest hole.
I`ll never be like you and you will end
frustrated, full on hate,
deep in the blackest hole!

What has happened to you life?
Do you really want it so, `cause

I don`t want to be like you, the time will come,
when everything too late
Deep in the blackest hole.
I`ll never be like you and you will end
frustrated, full on hate,
deep in the blackest hole!
