Tuning: Drop C (CADG)

This hadn't been tabbed yet so I thought I'd give it a shot.

Bass practically follows the guitar, with some minor exceptions (i.e. rhythm of chorus and not playing pre-chorus). Easy song once you know the rhythm, play it along with the music and you'll see what I mean. Fun to play with a band. This tab is 99% correct, Please rate and comment :D
