Can t you think my movements talk

G#

See me silently quietly creep

C#

I am too amped to sleep

G#

Lamp rays shining down

C#

Street lamps make the bussing sound

G#

Subway creaking down below

C#

Garbage piled up and ready to go

[G# C# G# D#] x2

Lock the windows the gates on

Taxi in the distance coming along

Stalking the streets till the break of day

New York beauty take my breath away

Near some cats but dogs don t bark

Cool cats strolling after dark

[G# C# G# D#] x2

Watch the watch...

Shaky lock and kicky door

Smokey air that I adore

Down in the alley is where I hunt

All is quiet on the eastern front

Stalking the street till the break of day

New York beauty take my breath away
