I can t seem to make you mine

I can t seem to make you mine

You fly around like a bee

Hurtin  everything you see

I try everything I know

To make you wanna love me so

The only things you do

Is try to put the hurt on me

   **Gb**                            **Db**

   Can t you see what you re doin  to me

   You fill my heart with misery

   **Gb**                      **Db**        **Gb**

   In every breath and step I take

                                **Eb**

   I m more in love with you

Can t go on like this

A little bit of love and not one kiss

I ve gotta have your love every day

Love that s real and will stay

I can t seem to make you mine

I can t seem to make you mine

I can t seem to make you mine

I can t seem to make you mine

[ C#  G#  Bbm  G# Bbm ] x4

    Can t you see...

I can t seem to make you mine

I can t seem to make you mine

Come back baby to me

And my misery

I give you love night and day

Never ever go away

I can t seem to make you mine

I can t seem to make you mine

I can t seem to make you mine
