It feels like somebody put something somebody put something in my drink
Somebody put something somebody put something

Blurred vision and dirty thoughts

Feel out of place, very distraught

Feel something coming on

Kick the jukebox, slam the floor

Drink, drink, drink, drink some more

I can t think Hey! What s in this drink?

It feels like somebody put something somebody put something in my drink
Somebody put something somebody put something in my drink
Somebody put something somebody put something in my drink
Somebody put something

In my drink

In my drink

[**A F G**]

So you think it s funny a college prank

Goin insane for something to drink

Feel a little dry

Oh, I couldn t care what you think of me

Cause somebody put something in my drink

I can t think Hey! Give me a drink

It feels like somebody put something somebody put something in my drink
Somebody put something somebody put something in my drink
