Intro riff:

```
e-----  
B-----  
G-5-(slide to)-8-7-5-5-3-2-3-2-2---  
D-----3-  
A-----  
E-----
```

```
E5                    F            G  
There s a place where I like to go when  
E5                    F            G  
I got no food I got no shelter  
E5                                                        F            G  
It s a house where I can get away for maybe three days  
E5                                                        F            G  
To get off the drink and stay off the haze
```

```
C                                                        G            F  
Who s the opposition? I m seven years down  
C                                                        G            F  
The human spirit prevails oh yeah I m down down down
```

```
E5                                                        F            G  
Woke up in the bushes 6:30 Tuesday morning  
E5                                                        F            G  
With an unopened Heineken and a head that was burning  
E5                                                        F            G  
For seven years I walked down the same path  
E5                                                        F            G  
Dreams they were all I ever had
```

(bass solo)
at end of bass solo: F G

```
C                                                        G            F  
Who s the opposition? I m seven years down  
C                                                        G            F  
The human spirit prevails oh yeah I m down down down  
C                                                        G            F  
Who s the opposition? I m seven years down  
C                                                        G            F  
The human spirit prevails oh yeah I m down down down
```
