instrumental

Play intro

A once in a lifetime blind love never saw
the light of day

It cost us forever for better or for worse
Thatâ€™s the price we pay

And I wish this time
You would be mine
For good

But the reason why you never stay
Is you say you didnâ€™t know you could

And you always ran away from me
And I always knew you would
And you say the reason why you never stay
Is you didnâ€™t know you could
