**Let It Hurt**
**Rascal Flatts**

Intro: **Bbm F# C# G#**    **Bbm F# C#** x2

**G#**
7:42 in the morning
**G#**                              **C#**
8 seconds before it all sinks in
**G#**
Put your best face on for the world
**G#**                              **C#**
Fake another smile and just pretend
**Fm**                                    **F#**
But you re just puttin  off the pain
**Fm**                                    **F#**
Nothing s ever really gonna change

[Chorus:]
**Bbm**                    **F#**
So let it hurt, let it bleed
**C#**                                                **G#**
Let it take you right down to your knees
          **Bbm**                                  **F#**
Let it burn to the worst degree
              **C#**                                        **G#**
May not be what you want, but it s what you need
            **F#**                    **G#**
Sometimes the only way around it
        **C#**          **G#**            **F#** (let it ring)
Is to let love do it s work
                  **Bbm  F#  C#  G#**
And let it hurt
                  **Bbm  F#  C#  G#**
Yeah, let it hurt

3:28 in the morning
Countin  up the spaces between the rain
You re gettin  used to the rocks at the bottom
Your heart goes numb, but the lonely stays the same
And that s the price you re bound to pay

**Fm**                                                          **F#   G#**
And there s really nothing anyone can say
                        **F#**                        **G#**
Oh, there s only just one way

[Chorus:]

So let it hurt, let it bleed
Let it take you right down to your knees
Let it burn to the worst degree
May not be what you want, but it s what you need
Sometimes the only way around it
Is to let love do it s work

     **F#m**
So go on
                   **Bbm F# C# G#**
Yeah, let it hurt

**Bbm F# C# G#** x2

                             **F#**                              **G#**
You might just find you re better for it
                 **C#**        **G#**              **Eb** (let it ring)
When you let go and you learn

**C#**                             **G#**
To let it hurt, let it bleed
        **F#**                              **G#**
Let it take you right down to your knees

**Bbm F# C# G#**
        Oh...

                     **F#**              **G#**
Sometimes the only way around it
        **C#**         **G#**        **F#**
Is to let love do it s work
        **F#m**
So go on
                 **Bbm F# C# G#**
And let it hurt
                       **Bbm F# C# G#**
Oh, let it hurt

**G#**
7:42 in the morning
**G#**                                              **C#**
8 seconds before it all sinks in
