Intro: **A A E B A E B**

**A**

Before we met I was free

**E B C#m**  
I never had to worry about anyone but me

**A**

Now that boy is gone and in his place

**E B C#m A**  
Is a man who needs to hold you night and day

**G C**  
So if I stumble, if I fall

**Am7 D Dsus D**  
Forgive me, I am just learning as I go along

Chorus:

**E A**  
See me through, see me through  
**C#m B**  
This aching heart has come so far  
**E A**  
To be with you, see me through  
**C#m B**  
With angel eyes, just look inside  
**F#m E A B**  
At all this lo--ve I never want to lose  
**A E B**  
See me through, oh yeah

**A**

I know sometime I let you down

**E B C#m**  
But I am still getting used to having you around

**A**

And if I ever make you cry

**E B C#m A**  
There's nothing I won't do to make things right

**G** **C**  
I am not perfect and that's for sure  
**Am7** **D** **Dsus D**  
A little time is all I am asking for

CHORUS

**F#m** **E**  
See me through this mask I wear  
**A** **B**  
Well, I am almost there, you know I care  
**F#m** **E** **A** **B**  
I am the man you always thought you knew

CHORUS

**E A C#m B** (repeat with ad-lib to fade)
