

Some Say  
Rascal Flatts

INTRO:

D - Em - D - Em - D - Em - D - Em

There s that star, the one they said we d never reach  
Em

And just close your eyes

G

There s the missing moon, there s the Milky Way

Heaven s straight ahead, we ll be there today

Rainbows right and left, sunshine everywhere

Asus

If it couldn t be baby, how did we get here?

CHORUS:

Some say we ll never get if off the ground

Some say we ll never make it out of town

That someday we ll end up a world apart

And some say we re a couple of crazy kids

And some say that s exactly what they did

And I say you got to go with your heart

And baby, look where we are

There s that home, the one they said we d never share  
Em

And just close your eyes

G

There s the picket fence, there s our mailbox

Puppy on the porch and roses up the walk

Shinny minivan, kids in every seat

Asus

Someday we ll look back and see it wasn t just a dream
