

Words I Couldnt Say

Rascal Flatts

**D**        **A**                                **G#min**        **A**  
In a book, in a box, in the closet

**D**        **A**                                **G#min**        **A**  
In a line in a song I once heard

**C#min**                                **D**                                **A**  
In a moment on a front porch late one June

**C#min**                                **D**                                **A**  
In a breath inside a whisper, beneath the moon

**D**                                **A**                                **G#min**        **A**  
There it was at the tip of my fingers

**D**                                **A**                                **G#min**        **A**  
There it was on the tip of my tongue

**C#min**                                **D**                                **A**  
There you were and I had never been that far

**C#min**                                **D**                                **C**  
There it was; the whole world wrapped inside my arms

**G**                                **A**  
And I let it all slip away

CHORUS

**D**                                **C**  
What do I do now that you re gone

**G**  
No back up plan no second chance

**G#min**                                **A**  
And no one else to blame

**D**                                **C**                                **G**  
All I can hear in the silence that remains

**A**  
Are the words I couldn t say

B F# G#min F# 2x then to the verse.

VERSE 2!

**D** **A** **G#min** **A**  
Theres a rain that will never stop fallin

**D** **A** **G#min** **A**  
Theres a wall that I tried to take down

**C#min** **D** **A**  
What I should have said just wouldn t pass my lips

**C#min** **D** **C**  
So I held back and now we ve come to this

**G** **A**  
And it s too late now

CHORUS!

**D** **C**  
What do I do now that you re gone

**G**  
No back up plan no second chance

**G#min** **A**  
And no one else to blame

**D** **C** **G**  
All I can hear in the silence that remains

**A**  
Are the words I couldn t say

INSTRUMENTAL-repeat 2 times

**D C G C**

**C#min** **D** **C**  
I should have found a way to to tell you how I felt

**A**  
Now the only one I m telling is myself

CHORUS!

**D** **C**  
What do I do now that you re gone

**G**

No back up plan no second chance

G#min                    **A**  
And no one else to blame

**D**                                    **C**                                    **G**  
All I can hear in the silence that remains(silence that remains)

**A**  
Are the words I couldn t say

**D**  
What do I do

**C**  
what do I say

**G**  
No back up plan no second chance

G#min                    **A**  
And no one else to blame

**D**                                    **C**                                    **G**  
All I can hear in the silence that remains

**A**  
Are the words I couldn t say
