

Breathless

Ratham Stone

G-Em-C-D-G

Its about that time again I think I should be heading home
Go to sleep and have a dream of when Im not alone
Who knows maybe I can find you there

Im running up and down the streets of where I use to live
I wont quit until I find the girl that couldve been
Who knows maybe I can find you there

C-D-C-D

And you told me you wont let go, said your heart was the map and you showed me
the road
And you told me to start real slow, and were clear to take off and you got me to
hold

G-D-Em-C-D

Ive never been in love before, I never wanted nothing more
I never thought Id meet the best, youre the girl thats perfect
Baby please dont ever leave, I know thats kind of selfish
But its really hard to think when you leave me so breathless

G-Em-C-D-G

We can run and hide, we can get away
We can leave tonight, tell me what you say
Where your at is where im going

C-D-C-D

And you told me you wont let go, said your heart was the map and you showed me
the road
And you told me to start real slow, and were clear to take off and you got me to
hold

G-D-Em-C-D

Ive never been in love before, I never wanted nothing more
I never thought Id meet the best, youre the girl thats perfect
Baby please dont ever leave, I know thats kind of selfish
But its really hard to think when you leave me so breathless

Ive never been in love before, I never wanted nothing more
I never thought Id meet the best, youre the girl thats perfect
Baby please dont ever leave, I know thats kind of selfish
But its really hard to think when you leave me so breathless
I cant believe I found a little piece of solid gold
I piece to the puzzle that will no longer have a hole
Baby please dont ever leave I know thats kind of selfish
But its really hard to think when you leave me so breathless
