

**Lost**  
**Ratham Stone**

Verse **G - C**

I don t think you understand how much  
I tried to keep the thoughts of you untouched  
And I don t think we ll have a chance to run  
Before the wars and lies and storms are done

Pre Chorus **Em7 - C**

No one has to find out where we re gonna go  
I could scream it out loud and they ll never know

Chorus **G - C**

We could be sailing away across the Atlantic  
Where the fog makes a wall with no sights of landing  
Stranded, standing on top of a mountain  
The sun and the seas or the birds in between  
When we re lost

Verse 2 **G - C**

Honey we can make this work  
A truth will come that s so much worse  
Lets stay wide awake cause if we re sleeping  
We re wasting time unless we re dreaming

No one has to find out where we re gonna go  
I could scream it out loud and they ll never know

Chorus 2 **G - C**

We could be sailing away across the Atlantic  
Where the fog makes a wall with no sights of landing

Stranded, standing on top of a mountain

The sun and the seas or the birds in between

When we re lost

Instrumental **G - C - Em7 - C**

Bridge **G - C**

I m a million miles away alone watching the sunset

Alone watching these stars

Alone I m here forever

You ll never be too far

I m a million miles away alone watching the sunset

Alone watching these stars

Alone I m here forever

You ll never be too far

Chorus 3 **G - C**

We could be sailing away across the Atlantic  
Where the fog makes a wall with no sights of landing
