

Hold You In My Arms
Ray LaMontagne

First time posting so bear with me

The other ones are pretty good but there were a couple mistakes and I simplified the intro for one guitar. I play,

Intro: repeat 2nd time just the C without hammer

```
----- 3-----3-----|
-----1-----1-----|
-----2h0-----0h2-----|
-----2--5----3-----3-----|
-3--5-----|
```

Just play it open for the single notes and C with the pinky and a hammer (those tabs are harder then I thought) ...I strum them to approximate the solo

The corrections are: regular Bm for verses and second stanza of chorus is G Bm Em ...
