Am  
 So hear me now while allowed, its a good time, to tell you when to smile, not to  
 frown,  
 you are all shot down

G Em  
 and you might ask how, Time flies by and you just found out, You are almost to  
 the point

Am

where you cant turn back, Youve got a leveled head on a one-way track, Dont tell me theres an

G Em  
end to a road, Your goal set on hold, Dont think that you can go alone Okay

Am  
But keep me up to date, I promise you Ill never lose the faith when you get up, go on escape, to a

G Em  
scary world, The old cliché is true, You do what you got to do, Im trying to put out something new,

Am  
Im always at the edge of my seat, constantly containing that kinetic energy, constantly Im

G Em  
reigning in the sweet melody, Im humming tunes to sleep, Watch me hit the peak and Ill stay up for

1:17

Am

Ill be shouting with my hands in the air, I dont care what they say, stop the hate,

G

Em

Ill replace it with my eyes focused in on a place, designed to keep a peace and refrain  
race killing race, oh my god,

Am

did you hear? The time it takes for me to make a difference is a near, And Im going to  
on trying because there

G

Em

aint nothing I fear, On the real, hide the tears, Well keep it flowing with a beat right here,
