It s time for us to see,
 Time for you and me,
 Too much greed, while so many bleed,
 Now that it s been said, put that shit to bed,
 Break it off, shake it off, take a hit, light it up and cut it

----1:15----

Gm Cm D# Dm
 You say you got a feeling to change up the system,
 Gm Cm D# Dm
 Oh we can light the scene, be justice of the peace, create an unseen,
 Gm Cm D# Dm
 Come use your head, we got ten times the power than some gunshots leaving
 some dead,
 Gm Cm
 Listen up, ready gotta make some shit right,
 D# Dm
 We re standing up against the ones who take away lives,
 D# Dm
 I mean it like, who wants to live a life, hiding from a war between some 45 s
 tryin to survive,

Common now,
 Gm Cm
 How many times you seen a glock used in self-defense?
 D# Dm
 How bout less than 15 percent, so represent, stand up
 Gm Cm
 Do you really wanna own one for the sake of it?
 D# Dm
 Think about black on black crime, what you think of that?

Poor people struggle everyday, and the rich get richer, what a fucked up
 state,

So no more hate,

Gm Cm
 Now let us rise up to the top,
 D# Dm
 We ll spread a little love instead of seeing gunshots

----2:09----
