**F C Dm**

Magpies on fire

**F C Dm**

Making love like little

**F C**

Worms out on the porch can

**Dm**

Leave the medicine

**A#**

Oh well I m game

**Bbm9**

For anything at all

**F C**

Scarecrows a liar

Spends the year alone

No one checked it out

To see if it was real

Sold you the moon

And now it s time to fall

All in all it s like the

Bird who s trapped alone inside the cage

Love

What more do you want?

How much more can you take?

I love my mistakes

I ve been here before

All in all it s just

A call of something wise beyond your room

There s a changing of a major chord

Your minor threat will do love

My gun misfired

Shot myself instead I guess

I always knew I d be the one to lose

Last scream don t slane

Time to make a move

What more do you want?

How much more can you take?

I love my mistakes

I ve been here before

All in all it s like the

Bird who s trapped alone inside the cage

Love

A bird who s going to live at half your age girl

A bird who s never really here to say

What more do you want?

How much more can you take?

I love my mistakes

I ve been here before

Least of all she s like

A bird who s now been

Freed from someone s cage

( **Am Dm G C** )
