

Magpies On Fire
Red Hot Chili Peppers

Intro: **G G7/9 Gm7/9 A F6/Bb Fm6(9)/Bb Bbm(9)**

F C Dm

Magpies on fire

F C Dm

Making love like little

F C

Worms out on the porch can

Dm

Leave the medicine

A#

Oh well I m game

Bbm9

For anything at all

F C

Scarecrows a liar

Spends the year alone

No one checked it out

To see if it was real

Sold you the moon

And now it s time to fall

All in all it s like the

Bird who s trapped alone inside the cage

Love

What more do you want?

How much more can you take?

I love my mistakes

I ve been here before

All in all it s just

A call of something wise beyond your room

There s a changing of a major chord

Your minor threat will do love

My gun misfired

Shot myself instead I guess

I always knew I'd be the one to lose

Last scream don't slane

Time to make a move

What more do you want?

How much more can you take?

I love my mistakes

I've been here before

All in all it's like the

Bird who's trapped alone inside the cage

Love

A bird who's going to live at half your age girl

A bird who's never really here to say

What more do you want?

How much more can you take?

I love my mistakes

I've been here before

Least of all she's like

A bird who's now been

Freed from someone's cage

(**Am Dm G C**)
