Verse 1:

Am C Am  
Afraid it won't come round again  
C Am

Afraid to move on

Am C Am  
Wishing I could go back when

**C**                      **G**                      **F**

Everything was easier and meaningful to me

Am C Am  
Wanting all we left behind

**c**  
Like it s the answer

Am C Am  
An hourglass we can't rewind

**C**                      **G**                      **F**

Holding back the life that I've denied for so long

**F**  
Can I find my way to you

Chorus:

**C** **G**  
And after all that we've been through

**F**

And after all we left in pieces

Am G C  
I still believe our lives have just begun

**C** Cause now the past can be outrun **G**

**F**

And I know you are the reason

Am G C  
I still believe the best is yet to come

Verse 2:

**Am**                **C**                                **Am**

A photograph still in my hands

**C**  
Afraid to let go

Am C Am

The minutes rain like grains of sand

**C** **G** **F**

And time is just a war that's stealing dreams from within

**F**

So come and take them back again

Bridge:

**F** **C** **G**

I won't turn around

**G**

And let it all slip away

**Am** **G**

I'm never backing down

**C** **Am**

Cause tomorrow's a new day

**C** **Am** **F**

And everything can change
