

So Far Away

RED

Tuning Drop A. (AEADGB) OR standard

You can tune ALLLLL the way down to Drop A to play this, OR play it in standard! I put the more passing chords in parentheses, if you're playing in Drop A these will be a bit more important, if you're just playing acoustic, or hey, don't feel like detuning, they are a bit more "optional" so to speak.

Please note, this was done by ear, I'm not from the band Red, so I may very well make mistakes, if you have any corrections or see any issues please let me know at: Ziti4him@Yahoo.com

Listen for the strumming you'll get it after you've heard it a few times.
