

**Apathetic Way To Be**  
**Relient K**

This is the new b-side song, found on the vinyl record of MMHMM. If you can't afford to get the vinyl, go to \* and check it out there. I personally think this song should've been on MMHMM.

Note:  
I think you can play this in both standard tuning and tuned half-step down (move chords up half-step). I only have some parts to it, and I'm trying to figure out the rest, please feel free to add to this!
