Disaster
Relient K

Artist: Relient K
Album: Collapsible Lung
Song: Disaster

Key: G# | Capo: 1

```
          G
I ve been spending all my time falling in love
                                            Am
Should know better but it s so much fun when I m with you
              D
Now there s a missing person poster hanging up at the bar
      G
Cause I, I ve got a girl
                   Am
I think we re in love
     F         C
But oh for how long
             G
It s got disaster, written all over
                  Am            F           C
So don t nobody show her our horrorscope headline
   Am
Disaster
F        G
Written all over it

Am        G/B
  No you didn t
C
No no you didn t
        D
Did you pull out the wires

Make a man out of me

C
 I m trying to figure out
Am                         D
  If life s worth living without you
            G
Hope I never have to
                 C
The stars could align
```

```
  G                        D
Or explode in the sky
   Am       F-G
Disaster

(G)
   Baby, you look so sexy
                Am
So what do I do when
    F             C                G
We get home from church and the baby

Is in her room sleepin
                Am
Or watchin  a movie
                  F
You get closer to me
    C            Am     F        G
Oh this has disaster written all over it

Yeah yeah yeah

C
 I m trying to figure out
Am                           D
   If life s worth living without you
            G
Hope I never have to
                  C
The stars could align
   G               D
Or explode in the sky
C
 If I already know about
Am                             D
   Everything that could bring us down
                  G
But I react a bit faster
                C     G
I m averting disaster
              D
One day at a time
   Am    G/B
Disaster
    C       D
Disaster
        Am
Oh, disaster
   G/B
Disaster
           D
```

Won t you pull out the wires

Make a man out of me

C
 I m trying to figure out
Am   **D**
   If life s worth living without you
              G
Hope I never have to
                C   **G/B**
It could be disaster
                  D
So don t even try
C
 If I already know about
Am   **D**
   Everything that could bring us down
                    G
But I react a bit faster
                 C   **G**
I m averting disaster
               D
One day at a time
    Am   **G/B**
Disaster
     C   **D**
Disaster, disaster
         Am   **F-G**
Oh, disaster
