```
Over It
Relient K
            Bm
I ll admit to who I am
The day I come to understand
I haven t got a clue
                               G
                                     D/F# Em D/F#
Been searching for a few years now
    G
                  Bm
Well if I don t repeat myself
                       D/F#
Then I ll change into someone else
Well I don t quite know who
Been searching for a few years now
I m over it
      D/F#
Yeah behind me now
I m just over it
Over it
         D/F#
Yeah I m finding out
         Em
                  G
I m just over it
                       D/F#
No, I don t know what s over just yet
                        G
But I won t go slow and time can let the mind forget
             D/F#
Don t tell me you don t know
D/F# Em
Already
              D/F# G
(Don t tell me you let go
D/F# Em
Already)
```

\$Em\$ \$D/F#\$ Or make a mess to make it worse

I ll protect your universe

```
C
Time will only tell
You and no one else so
                                          D/F#
You say you made up your mind and you ve finally decided
But those that helped you choose
                      D/F#
                                      Em
Haven t the slightest clue as to the magnitude of what you re about to lose
                          Bm
I m guarded and therefore I can endure
A little bit more
       D/F#
Just a little bit more
Than some people would
If I m not misunderstood
                                     Bm
It s still an attempt to be egoless while self-assured
                         D/F#
If I m still unsure that I m pretty sure
```

That I am pretty good

God, you know I m good and
