

Part Of It  
Relient K

**E**

I ve been working with adhesives

**C#m**

Chains and locks and ropes with knots to tether

**E**

But nothing s taking to the pieces

**C#m**

I can t seem to hold it all together

**A2**

But you should know

**E**

Cause that explains why it all just fell apart

**E**

It s not the end of the world

Just you and me

And we re a part of it

**C#m**

Everyone

We re a part of it

Everything

**A2**

And if a nightmare ever does unfold

**E**

Perspective is a lovely hand to hold

**E**

Well I ve been trying to ingest this

**C#m**

But everything to me just seems like nonsense

**E**

And I m not sure if I can get it

**C#m**

I guess its time for me to grow a conscience

**A2**

To combat the lapse

**E**

That explains why all of this simply collapsed

**F#m**

It s been forever since I ve gone

**Bsus**

But I m the Cusack on the lawn of your heart

**F#m**

May be forever til I go

**Bsus**

But before then you should know that I could tear that place apart

**F#m**

And I swear this to you

**A2**

I wish that this was not the truth

**E**

But it s something that you fell into

And crawling out is hard when you

**A2**

Are not so sure it s what you want to do

Not convinced it s what you want to do

**E**

It s just the weight of the world

Giving out under the string

But we re a part of it

**C#m**

Everyone

We re a part of it

Everything

**A2**

And when a nightmare finally does unfold

A nightmare finally shows

**E**

It s not the end of the world

Just a calamity

And we re a part of it

**C#m**

Everyone

We re a part of it

Everything

**A2**

And when a nightmare finally does unfold

**E**

Perspective is a lovely hand to hold
