

**I Wait For You**

**Remi**

www.remiband.com

**Em**                      **C**  
And i wait for you

**Am**  
To relapse

**B**  
To regain yourself

**Em**  
I am a slave

**C**  
like you

**Am**  
i demand

**B**  
nothing more than a fool

**C**  
and i wait for you

**G**  
and i wait for you

**B**  
And the day goes through

and i waste my youth  
and i waste my youth  
but i know

**Em**  
that my heart wont take it

**C**  
my soul wont make it

**G**  
my eyes wont fake it

**B**  
Its complicated

Our lives now wasting  
Our minds now tested  
Our souls infected  
it s as expected

and i wont stand by you no more

As you fall asleep  
to relax

to collect your thoughts  
Stand again, on your feet  
think that time, will never repeat

and i wait for you  
and i wait for you  
And the day goes through

and i waste my youth  
and i waste my youth  
but i know

that my heart wont take it  
my soul wont make it  
my eyes wont fake it  
Its complicated

Our lives now wasting  
Our minds now tested  
Our souls infected  
it s as expected

and i wont stand by you no more
