E
Now there s no one left to blame
C#m7   G#7
And your face stays the same
          A
You re ashamed to say you feel relieved
      F#m   B7
Stay away from your own family

```
E
But years from now
              G#7         C#m
If you could make them proud
          F#7                                      B7
You could leave the world and feel like you ve achieved the things you hoped to
do but
B                     C°                C#m7
Honestly I don t feel ordinary cause I haven t been at home in a while
D
Tell them that it s only temporary
B7
I m trying my best to smile

                    E
But that s never enough
              C#
Cause when you lose the ones you love
          F#                  D7
You might find it hard to cry
                    E              C#
Until it s only you and everybody else has left the room
          F#                        F7M
You might feel what it s like to not know how to feel

( E   B7 )

              E
You see, my old lady s old man just now left
        C#m7                              G#7
And there s nothing i can say except this long awaited rest
      A
Is a good thing and all good things must come to an end
      F#m                              B7

It s right in front of me so there s no reason to pretend except
E
I m afraid to die
                C#m7                G#7
If this were a movie, you d be taking our kids to school
A                               F#m
And I d be Channing Tatum or somebody sexy
          B7
somebody cool

E

E
Don t tell me you re sorry
          C#m7            G#7
You re just sorry for yourself
      A
And though you might seem fine alone
      F#m                  B7
Well I could be the one to help

E
Don t tell me you re sorry
          C#m7            G#7
You re just sorry for yourself
      A

I wanna be the one you help
