

**Sea Of Fate**  
**Rhapsody of Fire**

This version is the main heavy version. If you have the orchestral chords, please let me know by leaving a comment. This chord progression was figured out by ear and by watching different covers. Please correct me if you see any mistakes. This is made for those who don't use guitar pro like me.

**Bm**            **Bm/Bb**  
Mirrors reflecting  
      **Bm**        **A**            **Bm**  
The broken illusion of one lost  
                  **Bm**  
And sinful (mind)  
                  **Bm/Bb**  
Mind's eye protect me  
      **Bm**                    **A**                    **Bm**  
While caught in this dark world of fear  
                  **Bm**  
And fading hope  
                  **F#**  
My soul is worn

**Bm**            **A**  
The sun lonely words  
      **Bm**            **A**  
of innocence lost,  
                  **D**                    **D/C#**  
in the shades now revealed  
                  **G**                    **F#**  
by a fate never told.  
      **Dm**            **C**  
A sea of new hope,  
                  **Dm**            **C**  
won't fear his reborn,  
                  **F**                    **F/E**  
in its waters we'll wait  
                  **Bb**                    **A**  
for the great heavens call.

**Bm**                    **Bm/Bb**  
Fragments of tortured  
**Bm**                    **A**                    **Bm**  
Existence revealing cold whispers  
                  **Bm**
