

**Colonics Commercial**

**Rhett & Link**

This song works best tuned down a whole step,  
and since my guitar was tuned to that anyways,  
that is the version I have submitted...I'll throw  
up another version soon with a capo if people are  
interested. Thanks for checking it out!

Tuned one whole step down:

This is just a rough version for the guitar, there are lots of other changes  
going on  
since it`s piano, but it can sound as close to the original song to make your  
friends  
laugh! Thanks for checking out my chords!
