

**What Women Want**  
**Rhett & Link**

This is my first time uploading chords so please be easy if there are any mistakes :).

This song is really simple but awesome. It s just 3 chords

Intro **D Em F#m Em**

Verse 1 **D Em F#m Em** (just repeat this the whole song)

Studys show that women like a man with a guitar.  
But I don t wanna learn guitar cause I heard it hard.  
But I can learn how to hold it and move my hands.  
Just enough so you might think that I might be in a band.

That s what women want

Verse 2

I don t play the saxophone but I heard it nevers fail...  
for a women to love a sax playing man. So I bought one at a yard sale.  
It looks incredibly complicated with all these moving parts.  
But all I gotta do is move my fingers and throw back my head to speak to your heart.

That s what women want

Verse 3

I don t technically have a job. But iv e heard the ladies like,  
A man that doesn t live at home. And drives a car instead of a bike.  
So I carjacked this convertible and shoplifted this suit.  
And I know it impresses you when I m driving and talking on my bluetooth.

That s what women want.

Verse 4

I don t have the capacity to feel emotions for others.  
Because I m a sociopath, I never knew my mother.  
But I ve learned how to mimic human feeling and make women feel like I care.  
I find it goes a long way to just tell a girl you like her hair.

Chorus

That s what women want. That s what the ladies like.  
That s what chicks dig. That s what females prefer.  
That s what honeys desire. That s what babes fancy.  
That s what girls are into to. That s what women want.

I left out the talking parts by Chester and Kassem G.  
I can upload the tabs if people want to have them.  
Enjoy mythical beasts!!!!
