

Dont Stare At The Sun
Richard Hawley

Am **D** **Fmaj7**
Love just drifts us on, on our way to the fields where we will play today
Louie brings his kite, with a home made paper-chain
Strange to see the sight of the moon in the daytime not the night
I will lift you up so high on my shoulders to the sky

Am **D** **Fmaj7**
Singing in the dark on our way home, the day is done for sleepy ones
On the fire escape my telescope that scans the evening sky
If I could see it all, oh to be lost, in a galaxy of distant stars
Did I see your face, it weighs so much, to be alone tonight
