Em Bm D A  
I can take or leave it, won't be the woebegone  
G Bm Em D  
Don't need a model universe to hang your pictures on  
Em Bm C A  
You hide somewhere, You die somewhere and then this senseless thought:  
G Bm Em D  
By hating more, you're feeling more, and that's how you get caught  
Em Bm Em D  
They're never gonna make it easy, of this you can be sure  
Em F#m A B  
I'll greet you from your wilderness, I'll stay inside your door

Em Bm D A  
There is no cage or prison, they have no fence too tall  
G Bm Em D  
You die more times than anyone and there's still no place to fall  
Em Bm Em D  
They're never gonna keep it simple, this comes down from above  
Em F#m Bm A B  
I have no helm, no secret realm, I dream to be at the heart of love, a part  
of love

Em Bm D A

Em Bm D A  
I bet you can conceal it, but that's just a dead-end track  
G Bm Em D  
I'll cover you like the driven snow, and then I'll bring you back  
A Em Bm C  
You'll see, you'll feel like, you'll feel like a banner, unfurled and gently  
blown  
G Bm Em D  
And there before your opening eyes the self you've never known  
Em Bm Em D  
They're never gonna make it easy, of this you can be sure  
Em F#m A B

You ll feel untied, beatified, and loved forever more.
