

**You Can Only Get So High**  
**Richie Sambora**

**G#m** **E**  
Hard time wake up this morning

**B** **F#**  
Closed the blinds so I can see

**G#m** **E**  
First light came without a warning

**B** **F**  
Hit the sunrise, get the daylight itâ€™s out of me

**G#m** **E**  
Down seven times alone for breakfast

**B** **F#**  
Chasing down where s last night cloudy memory

**G#m** **E**  
Empty bottle preach the gospel

**B** **F#**  
Another shot ainâ€™t coming close to saving me

**B**  
Close to saving me

**B**  
You can only get so high

**F#**  
Then you got a come down

**G#m**  
Twisted in the clouds, just like a kite

**E**  
Back in just despair up in the sky

**B**  
Flying in the freehold

**F#**  
Before you know it is your last call

**G#m** **E**  
I ll take one more drink and two packs of love

**E** **F#**  
Driving out the demons in the sky

**B**  
You can only get so high

You can only get so high

Life was one long after party  
My welcome was too long of a stay  
The guitar sings the same old story  
But they leave it out, got the bills of getting paid  
You keep yourself 10 second chances  
So I ainâ€™t quitting Iâ€™m just leaving for a while  
Ended like some many bad romances  
One more picture left before you say goodbye

You can only get so high  
Then you got a come down  
Twisted in the clouds, just like a kite  
Back in just despair up in the sky  
Flying in the freehold  
Before you know it is your last call  
I ll take one more drink and two packs of love  
Driving out the demons in the sky  
You can only get so high  
You can only get so high

**F#** **G#m**  
Endless limitation that I keep on gettin back  
**F#** **G#m**  
I guess I stopped by sitting down with me, myself and I  
**F#** **G** **G#m** **E**  
I think it s best to leave my desperation to desire

**B**  
You can only get so high

**F#**  
Then you got to come down

**G#m**  
Twisted in the clouds, just like a kite

**E**  
Back in despair up in the sky

**B**  
Flying in the freehold

**F#**  
Before you know it is your last call

**G#m** **E**  
I ll take one more drink and two packs of love

**B**  
You can only get so high

**F#**  
Till your bottle melt a breakdown

**G#m**  
You can only hurt so many times

**E**  
Before the truth falls from the lie

**B**  
Flying in the freehold

**F#**  
Just before you hit the last one

**G#m** **E**  
They only get one more chance and one last goodbye

**F#**  
It took me a lifetime to realize

**B**  
You can only get so high

**B**  
You can only get so high

**B**  
Then you got a come down
