

**Paris Nights**  
**Ricky Gervais**

Versus (strum each chord once)

**Am** **F**  
The rose you never used your thorns,  
**C** **G**  
The ones you loved abandoned you.  
**Am** **F**  
Your angel face made hearts so warm,  
**C** **G**  
You helped the sick, but who helped you?

Pre-chorus (palm-muted)

**Am** **F**  
Then rushing through, the Paris nights,  
**C** **G**  
They hounded you, you lost control.  
**Am** **F**  
We prayed that you would be alright,  
**C** **G**  
The news came through, your body co-o-old....

Chorus (picked)

**C** **F** **C** **G**  
Goodnight, my sweet princess....

Don't forget to put a ridiculous facial expression on when changing to the pre-chorus.
