

Only Now
Ride

G **Am**
Only now the jewel shining
G **Em**
Only now I ve lost the fear
G **Am**
In an hour I ll stop crying
F
Along the road ahead

G **Am**
Early on our life burned
G **Em**
Early on the gem not clear
G **Am**
Comes the time to take a turn
F
To find another way

D **C** **G** **D**
And I swear no hurricane could lead me all astray
And I swear no hurricane would dare to try to keep me away

Only now have you touched me
But by now you re who knows where
Only now has it hit me
Wasn t sure before

Early on the signals cross
Where s the potion where s the drug
Just for now the jewel is lost
Keep on the road ahead

And I swear no hurricane could lead me all astray
And I swear no hurricane would dare to try to keep me away

Early on the signals cross
Where s the potion where s the drug
Just for now the jewel is lost
Keep on the road ahead

And I swear no hurricane could lead me all astray
And I swear no hurricane would dare to try to keep me away
