

## We Were Made Out Of Lightning Right Away, Great Captain!

Okay, I m more or less positive that these are the proper chords. All except the barred

Am in the bridge. Also, he slides all the way up to the 8th fret to play C and everything is softly palm muted.

Intro - Am, E, F then G, all held for two counts and if you fiddle around with your pinky, I m sure you ll figure out the hammer ons.

**Dm**        **Am**                **E x2**  
We were made out of lightning;  
     **F**                                **C**                **E x2**  
a suffering pain, you should see by now.

**Dm**        **Am**                **E x2**  
We were burned down like Catholic  
     **F**                                **C**    **E x2**  
on a winter road never so cold.

**Dm**        **Am**                **E x2**  
And I abandoned my family  
                             **F**                                **C**                **E x2**  
in a fit of rage, in a fit of want for you.  
                             **F**  
There s nothing else to do  
     **B**                                **E x2**  
when you re confused, when you re confused.

(Play the intro)

**Dm**                                **Am**                **E x2**  
You re cattle and you re cat-like, I am scared.  
                             **F**                                **C**                                **E x2**  
Your bald tongue and your right hand and your last peace.  
**Dm**                                **Am**                **E x2**  
And I, I never really knew who d you see,  
                             **F**                **C**                                **E x2**  
it s okay, it s okay, it s okay.

**C**                                **Am** barred  
Now I, I keep it inside of me  
   **F**                **G**  
Hoping you would one day let me go  
     **C**  
It s the end,  
                             **Am** barred  
it s nothin I ended.

**F**

So grab your arms and dive into the sun,

**G**

to the sun.

(It s same as the 1st verse)

I am not your savior,

I m just your friend keeping you alive.

And hindsight proves that you re haunted;

the same way you speak all the time.
