

**Blood Red White And Blue
Rise Against**

My first tab! This is how I play the song :)

Chords used: **Em - C - G - D**

Verse:

Em **C**
so come test me, so come break me,
G **D**
so come on intoxicate me
Em **C**
with hands tied behind my back,
G **D** **Em**
I fight and wait for you to strike
Em **C**
a new problem we can't stop them,
G **D**
we're outnumbered and uncautioned,
Em **C** **G** **D**(strum long)
a rally cry rings out into the night

Chorus:

Em **C** **G** **D**
so pride yourself on what you are,
 Em **C** **G** **D**
and hold them all to words they can't take back,
Em **C** **G** **D**
I've seen a place (it comes) to me in dreams
Em **C** **G** **D** **Em**
where fires die but light still shines for us to see

Em - C - G - D

D **Em**
what did you have to say?
Em **C**
give me your logic, your definition,
G **D**
the words you twist to justify your position
Em **C** **G**
of mass starvation and blind airstrikes,
D **Em**
every problem is solved with a fight
Em **C** **G** **D**
peace won't be found, til we're underground,
Em **C** **G** **D**
as long as we live without a sound

Chorus:

Em **C** **G** **D**
so pride yourself on what you are,
 Em **C** **G** **D**
and hold them all to words they can t take back,
Em **C** **G** **D**
I ve seen a place (it comes) to me in dreams
Em **C** **G** **D** **Em**
where fires die but light still shines for us to see
