

**From Heads Unworthy  
Rise Against**

[Verse]

**Em**                    **G**                    **D**                    **C** **D** **Em**  
We are the children you reject and disregard  
**G**                    **D**                    **C** **D** **Em**  
These aching cries come from the bottom of our hearts  
**G**                    **D**                    **C** **D** **Em**  
You can't disown us now, we are your own flesh and blood  
**G**                    **D**                    **C**                    **D** **Em**  
We don't disappear just because your eyes are shut, Now tell me

[Pre-Chorus]

**C**  
Love, Loss  
**D**  
Like a bullets path  
Tear, Through  
**C**  
The cavity of my chest  
Lights, Out  
**D**(ring out)  
Because the fuse has blown

[Chorus]

**Em**                    **G**                    **D**  
As your castles crumble slowly  
**C** **G**                    **D**  
We watch them fall  
**Em**                    **G**                    **D**  
The crown slips from heads unworthy  
**C**                    **G**                    **D**  
As we take control

[Verse]

This is the family that we crossed or never had  
This is a war that was lost the day that it began  
Because it's the race we run, but it keeps us at the start  
It's the song I sung from the bottom of heart, That's how we

[Pre-Chorus]

Read, You  
Like a polygraph  
Not, One  
Single bone in your back  
own, Up  
To how you let us down

[Chorus]

**Em G D**  
As your castles crumble slowly  
**C G D**  
We watch them fall  
**Em G D**  
The crown slips from heads unworthy  
**C G D**  
As we take control

[Bridge 1]

**C D**  
Except for you and me, love  
**Em G C**  
Everyone is the same, we know we know, we know we know..  
**D**  
But if to live, we have to be numb  
**Em G C**  
I d rather know the pain, I d rather know I d rather know..  
**D**  
This happens almost never  
**Em**  
But it happened once to me  
**G C**  
And this will never be same...  
**D**  
The ends we seam together

[Bridge 2]

**Em G D**  
I m not after fame and fortune  
**C G D**  
I m after you  
**Em G D C G D(ring out)**  
When I ve served my time I swear I will come for you

[Chorus]

**Em G D**  
As your castles crumble slowly  
**C G D**  
We watch them fall  
**Em G D**  
The crown slips from heads unworthy  
**C G D**  
As we take control

[Outro]

**C G D**  
I m after you
